### AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

- 7 |
1. (Previously presented) A process for enhancing immune response of a companion animal consisting of a dog or cat, said process comprising the step of feeding said animal in need of such treatment a diet containing an effective immune enhancing amount of lutein, wherein the diet contains from about 1 to about 50 mg/day of lutein for a time sufficient for said lutein to be absorbed by said animal.
  3. (Previously presented) A process as claimed in claim 1 in which said diet includes from about 2 to about 315 mg lutein per kg of diet.
  4. (Previously presented) A process as claimed in claim 1 wherein said companion animal is a dog.
  5. (Previously presented) A process as claimed in claim 4 in which said diet includes from about 5 to about 20 mg/day of lutein.
  6. (Previously presented) A process as claimed in claim 1 wherein said companion animal is a cat.
  7. (Previously presented) A process as claimed in claim 6 in which said diet includes from about 5 to about 10 mg/day of lutein.
  8. (Previously presented) A process as claimed in claim 1 in which said diet comprises about 20 to 40% crude protein, about 4 to 30% fat, and about 4 to 20% total dietary fiber.
  9. (Previously presented) A process for increasing the lutein concentration in the circulating blood of a companion animal consisting of a dog or cat, said process comprising the step of feeding said animal in need of such treatment a diet containing from about 1 to about 50 mg/day of lutein for a time sufficient for said lutein to be absorbed into the bloodstream of said animal.
  10. (Previously presented) A process for increasing immunoglobulin concentration in a companion animal consisting of a dog or cat, said process comprising the step of feeding said animal in need of such treatment a diet containing an effective immunoglobulin increasing
